

How has the ancient Maya civilisation changed over time?

I would like you to present information about how the Maya civilisation has changed over time and how they live in modern times. There is an information sheet on the blog as well as using the information from the BBC Bitesize Website – click [here](#) to access it.

- What traditions have they kept today?
- What still remains of their culture today?

Task: You will need to present your information either on a PowerPoint slide (just one for each area), use Word or handwrite.

You will need to make sure your information is/has:

- ✓ NEATLY presented – i.e. lines drawn with rulers, neat handwriting, information organised in to text boxes
- ✓ Colourful – you can use different fonts, coloured writing, draw pictures, use pictures from the internet
- ✓ A main title and subheadings that look different to the rest of your text – you can use underline/bold/italics if on the computer; colours, bubble writing if handwriting
- ✓ Pictures to illustrate your information
- ✓ An introduction to introduce your information
- ✓ Enough information to inform the reader – one or two paragraphs is not sufficient; you will need to become the expert of your information

Remember: You CANNOT copy (and paste) large chunks of information from the internet so make notes first before you present your research.
