

Kitten Class

My Learning this week

Phonics

This week the sounds we have revised are:

ch, sh, th, ng

Tricky word of the week:

was

You have been given new 'tricky words' to learn in your reading folder. This [link](#) will help you think of fun ways to learn them.

Don't forget to look at your 'spot word' keyring too. Learning these words will help you develop more fluency in your reading.

Maths

This week in Maths we have been exploring:

numbers beyond 10 (11-20)

We have been learning to recognise numbers beyond 10 - the teen numbers!

We have been thinking about the teen numbers as 'one ten and extra ones'. E.g. 17 is made of one ten and seven ones.

[Try this activity at home.](#)

Australia!

We have started to learn about Australia! You can find our topic map for this half-term [here](#).

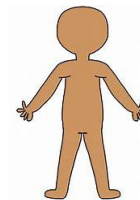

This week we have thought about where Australia is in the world and how it is made of states and territories. We have thought about some of the weather they experience in Australia and how this can differ from the North and South.

We have looked at the directions on a compass to help us with describing positions.

Medicines

This week, we have started our new PSHE them of medicines and drugs.

We have explored how things enter our bodies e.g. through our mouths, noses, ears, skin and eyes.

We have started to look at how there are medicines called drugs that we can take to help us feel better. But there are some drugs that are not medicines.

Concept Cat: Each week we will be learning 2 new words to help us develop our vocabulary.

From next week, we will be learning two vocabulary words each week. Please use these words in your everyday conversations with your child. The more the better, as it takes at least 50 times of hearing these words before children even start to begin using them themselves.
