

## Maths + English Review Instructions

**Instructions:** Using your homework book, write a review about your learning this half term. I would like you to write about how you have settled back into your learning in Adders Class. Then I would like you to write about how well you think you have done with your maths (particularly place value and addition and subtraction) and writing our story 'The Journey'. In your English review, you could write about what you think you have improved, such as spellings, vocabulary, using different sentences. You only need to fill in the boxes with lines; I will fill in the rest.
