### Swimming classes

Our swimming programme is for children in full time education who are able to follow instructions in a small group, and aims to establish healthy and safe behaviour in a happy environment. Children are taught water safety, development of water confidence and swimming ability by following structured and progressive activities in all levels. Classes work with an emphasis on water skills and safety and to gain increasingly more difficulty stage awards.

**Beginners** For non-swimmers or those in armbands. Focus is on water confidence, safety and progression out of armbands to swim 5 metres on front and back unaided.

**Early Swimmers** For children who can swim without aids. Introduction to the 4 strokes aiming to swim up to 25 metres unaided. Introduction of submerging and push and glides.

**Improvers** To help children improve strokes and to swim the 2 main strokes up to 50m unaided effectively with correct breathing techniques. Basic diving skills and water safety will be taught. Introduction to rotational skills and correct breathing techniques and personal survival introduced.

**Advanced** Starts, turns and finishes will be taught. Streamlining of strokes over 100m and distance swimming explored up to 400m. Diving is further enhanced and learners will work towards Personal survival skills.

**Swim Fit** Aimed at swimmers who have completed all of the above and would like to perform distance swimming. Diving and swimming challenges will enhance these lessons and improve on strength and stamina.

**Rookie Lifeguard Course** Learn survival, rescue and sports skills for older children. After which you will have a good basic knowledge to train for a Full Lifeguard qualification. These can be booked through RLSS, or check your local pool websites.
