

# Lesson 3: Where have we seen information technology in the world?

Year 2 – Computing Systems and Networks – Information technology around us

# Lesson 3: Where have we seen information technology in the world?

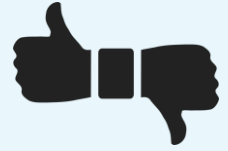

To identify information technology beyond school

- I can find examples of information technology
- I can talk about uses of information technology
- I can compare types of information technology

# IT at home

Where else might we find  
information technology?

# Do you think we will find IT here?

Shops

Do you think we will find IT here?

Woods

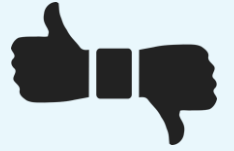

Do you think we will find IT here?

Offices

Do you think we will find IT here?

Beach

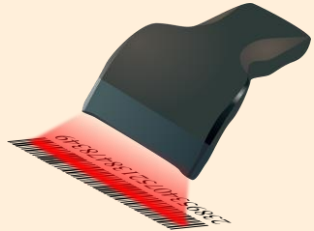

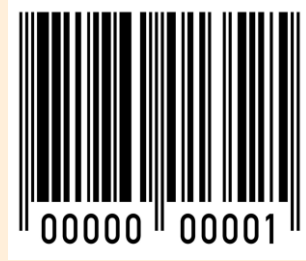

# We will find information technology in these places

Shops

Cafes or restaurants

Where might these things be found?

Street

Shop or cafe

Drag the pictures at the top of the page to the place that you think they will be found in

# Talk about IT

- Where?
- What?
- Why?
- How?

Can you think of a job  
where workers may  
not use any IT?

## How confident are you? (1-3)

- I can find examples of information technology
- I can talk about uses of information technology
- I can compare types of information technology

**3 - Very confident**

**2 - Unsure**

**1 - Not confident**

# To identify information technology beyond school

## In this lesson, you...

Thought about where we are likely to find IT being used. You talked about how some IT works too.

## Next lesson, you will...

Think about how information technology is used in a shop.
