

JOBS WITH MATHS

A quiz

Supported by Oxford University Press.
Schools can [Download a poster](#) on how
maths features in children's dream jobs.

#GrowTheirNumbers

Numbers and mathematics are used in many different ways, including at work.

What is your dream job?

Professionals use
maths at work.

**How might you
use maths in your
dream job?**

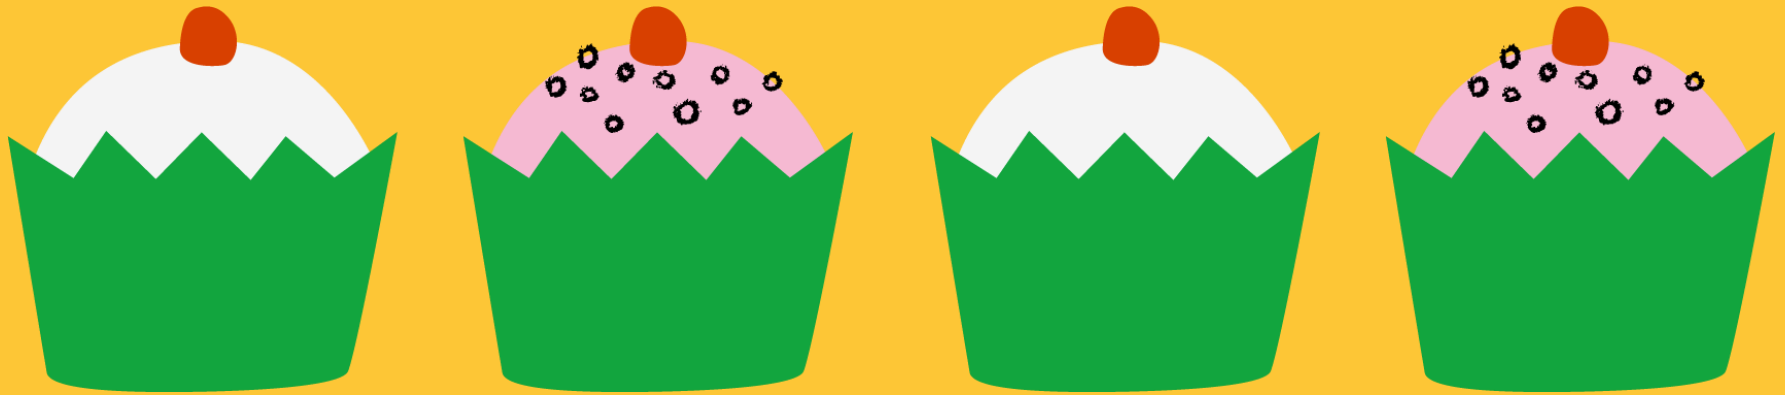

For the following seven professionals, you will see an example of how they use maths in work.

You need to unjumble the anagram example to score a point. There is one point per correct answer.

Example: Who does this profession
use maths?

Baker

Unjumble this word to reveal the answer:

thegwis

Prepare your answer sheet;

1. Example: Weights

2.

3.

4.

5.

6.

7.

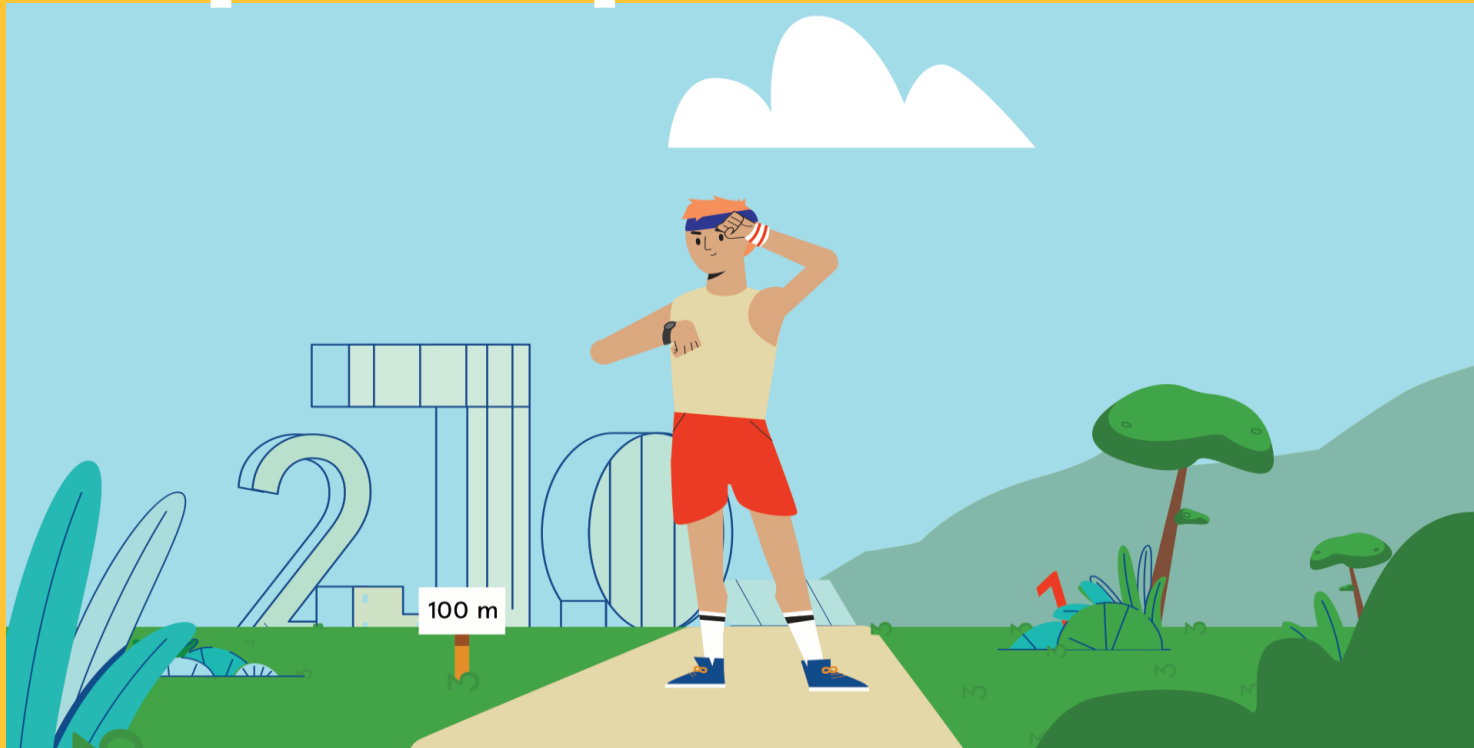

2. Doctors

Unjumble the answer:

icttsista

3. Sports professionals

Unjumble the answer:

soarti

4. Police

Unjumble the answer:
rablega

5. Designers

Unjumble the answer:

ogmeyetr

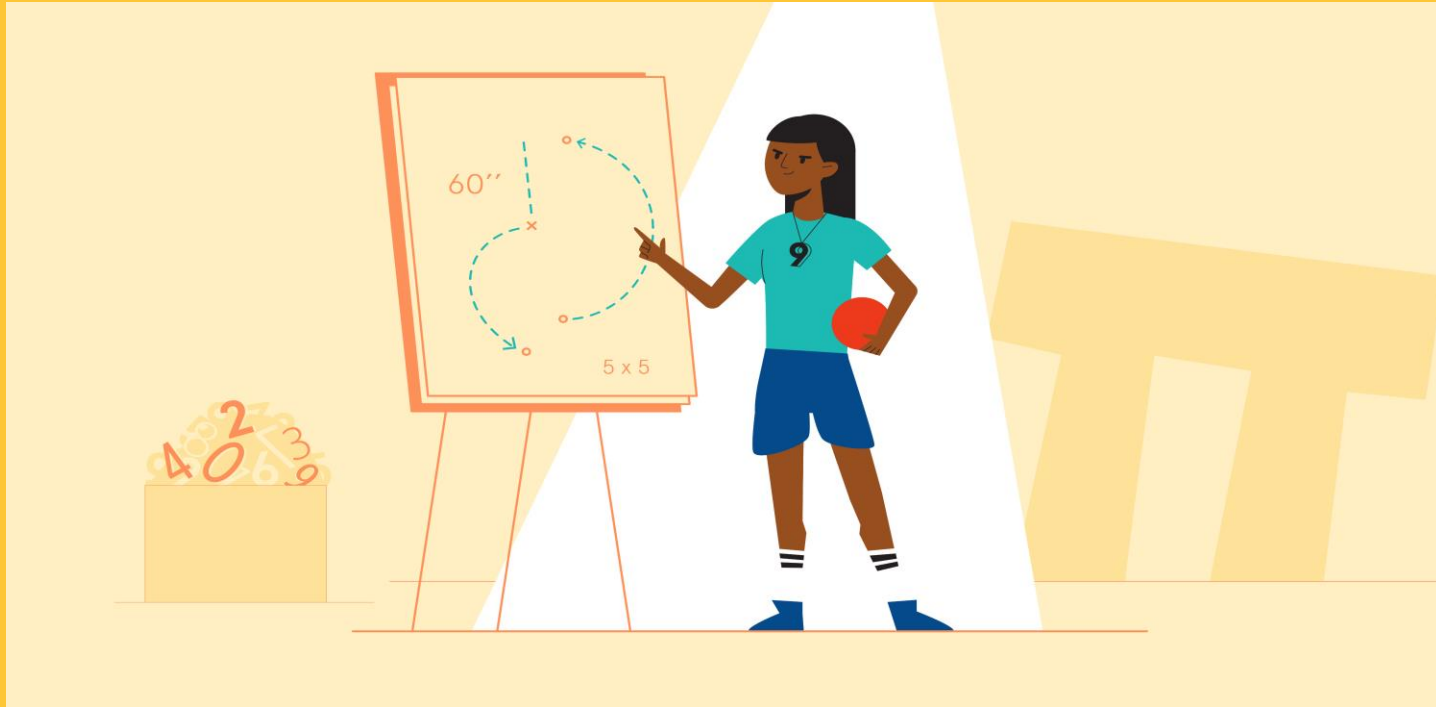

6. Artists

Unjumble the answer:

nmeaursmeets

7. Teachers

Unjumble the answer:

isidvion

AnswersL

1. Example: Weights

2. Statistics

3. Ratios

4. Algebra

5. Geometry

6. Measurements

7. Division

Team challenge 1:

How many professionals you can think of that use maths.

Write down the job and example.
(One point per job with example)
