

Shackleton's Shipwreck Found

The headline uses alliteration to create interest.

Can you create a different headline for the article using alliteration?

.....

Summarise what happened to Endurance to cause it to sink.

.....

.....

.....

Tick the correct box next to the statement.

True

False

The ship struck an iceberg which caused it to sink.

Shackleton and his entire team camped on the ice.

The journey to safety started in South Georgia and then led to Elephant Island.

Low levels of sea ice helped the ship to be discovered.

The Endurance had suffered almost no damage despite its 107 years on the seabed.
