

Answers: Your Brain and You- Reading Comprehension

1. 75%

2. Neurons (neurons are nerve cells, so nerves would be acceptable)

3. Your brain stops growing

4. Hemispheres

5. Electrical signals

I: A bicycle helmet

V: Half

S: The signal has to travel along your nerves to your brain

I: The author finds it interesting because they start the sentence with "interestingly"

S: Cold food or drink chills the veins in your throat. This restricts blood flow to the brain.
