

# Varied Fluency

## Step 4: Line Graphs

### National Curriculum Objectives:

Mathematics Year 4: (4S1) [Interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time graphs](#)

Mathematics Year 4: (4S2) [Solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs](#)

### Differentiation:

**Developing** Questions to support using line graphs to solve comparison, sum and difference problems, using increments of 1 on the y axis. Using up to 5 recordings per graph.

**Expected** Questions to support using line graphs to solve comparison, sum and difference problems, using multiples of 2 and 10 for scale intervals, with some use of half intervals. Using up to 8 recordings per graph.

**Greater Depth** Questions to support using line graphs to solve comparison, sum and difference problems, using multiples of 2, 5 and 10 for scale intervals, where not all increments are marked, use of half intervals. Using up to 8 recordings per graph.

## Line Graphs

1a. How many degrees did the temperature drop between 1pm and 3pm?

Temperature in January

VF

## Line Graphs

1b. How much did the baby's weight increase between 2 months and 5 months?

Weight of a baby

VF

2a. True or false? The height at 3 weeks was 3cm more than it was at 2 weeks.

Height of a Hedge

VF

2b. True or false? The distance at 2 seconds was less than it was at 1 second.

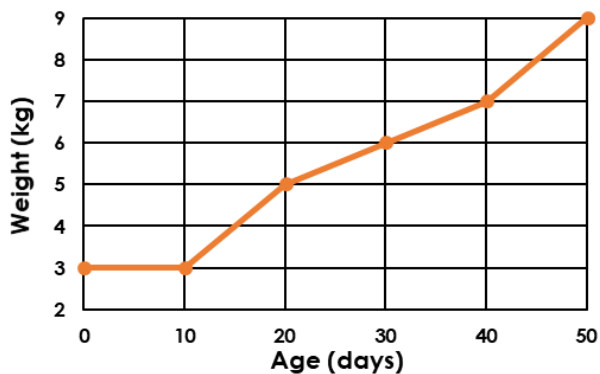

Speed of an Athlete

VF

3a. How many kg did the lion cub gain between 10 days and 40 days?

Weight of a Lion Cub

VF

3b. How many centimetres did the flower grow between week 1 and week 4?

Height of a flower

VF

5kg

4kg

4cm

5cm

# Line Graphs

4a. How many seconds did it take to run from 20m to 50m?

Speed of a Runner

VF

# Line Graphs

4b. How many kilometres did the boat travel between 3 and 5 hours?

Distance Travelled

VF

5a. True or false? The distance the tide had travelled at 10am was twice what it was at 4pm.

Tide Changes on a Beach

VF

5b. True or false? The number of trees in 1990 was double the number of trees in 1960.

Growth of a Forest

VF

6a. How many kilograms did the bear lose between October and March?

Weight of a Hibernating Bear

VF

6b. How many metres did the ball drop between 0 and 5 seconds?

Speed of a Ball Dropped from a Tower

VF

180kg	50kg	35kg	130kg
-------	------	------	-------

14m	50m	12m	10m
-----	-----	-----	-----

## Line Graphs

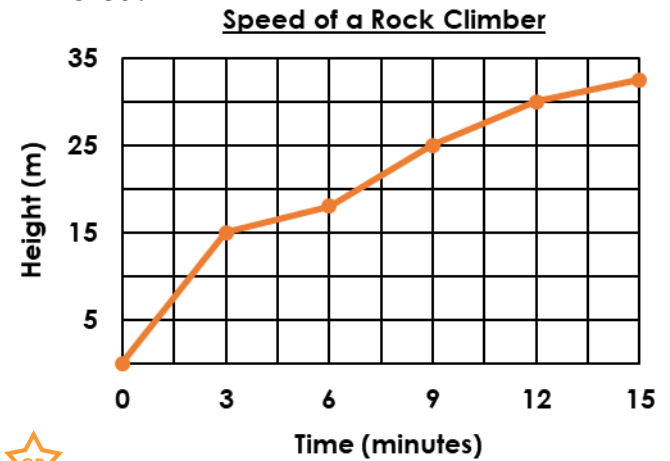

7a. How many centimetres did the child grow between Year 3 and Year 6?

VF

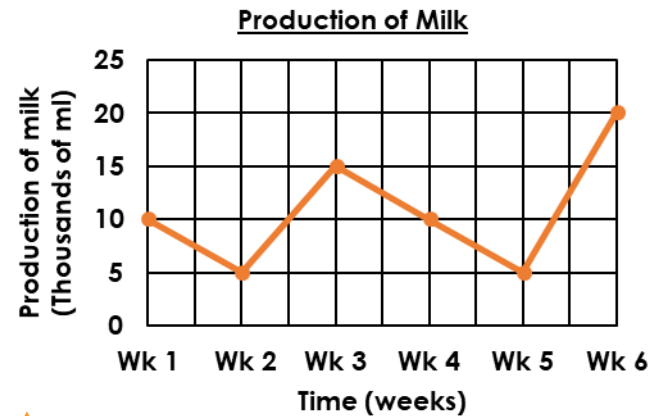

## Line Graphs

7b. How many metres did the climber travel between 3 minutes and 12 minutes?

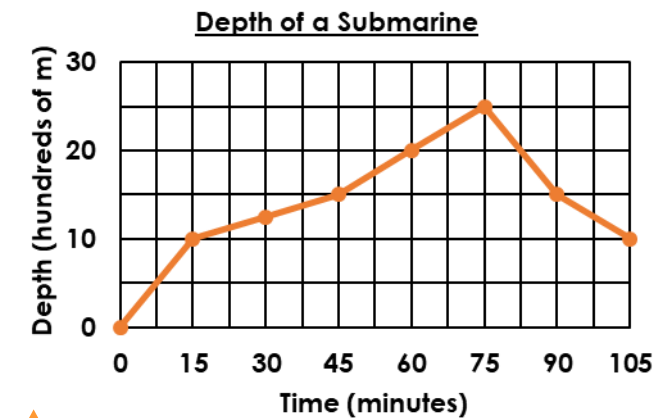

VF

8a. True or false? The amount of milk produced in week 6 was twice what it was in week 2.

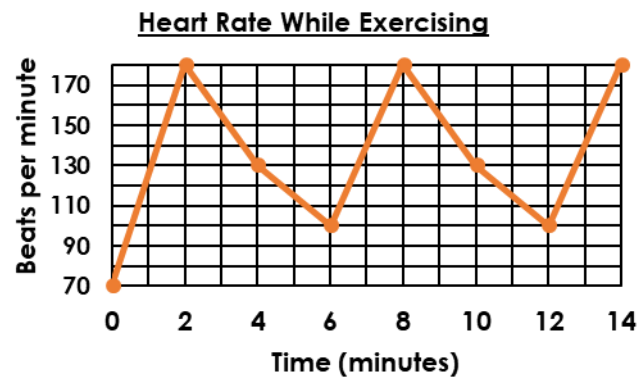

VF

8b. True or false? The depth dived after 60 minutes was double what it was at 15 minutes.

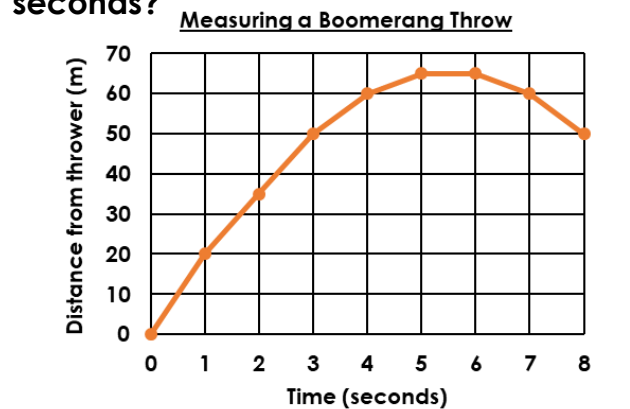

VF

9a. How many beats per minute did the heart reduce by between 2 and 6 minutes?

VF

9b. How many metres did the boomerang travel between 0 and 5 seconds?

VF

60	80	90	70
----	----	----	----

55m	70m	75m	65m
-----	-----	-----	-----

## Varied Fluency Line Graphs

### Developing

- 1a. 3 degrees
- 2a. False; it was 2cm more at 3 weeks than 2 weeks.
- 3a. 4kg

### Expected

- 4a. 5 seconds
- 5a. False; it was 60km at 10am and 20km and 4pm.
- 6a. 35kg

### Greater Depth

- 7a. 19cm
- 8a. False; it was 20,000ml in week 6 and 5,000ml in week 2.
- 9a. 80 beats per minute

## Varied Fluency Line Graphs

### Developing

- 1b. 2kg
- 2b. False; the distance was greater at 2 seconds.
- 3b. 4cm

### Expected

- 4b. 20km
- 5b. False; there were 2 million trees in 1960 and 9 million in 1990.
- 6b. 50m

### Greater Depth

- 7b. 15m
- 8b. True
- 9b. 65m
