

Music Notation and Fractions – Answers

Starter:

Add these fractions...

(a) $\frac{1}{2} + \frac{3}{4}$

*one half is two quarters,
so two quarters plus
three quarters is five quarters*

(b) $\frac{7}{12} + \frac{1}{4}$

(c) $\frac{2}{3} + \frac{4}{5}$

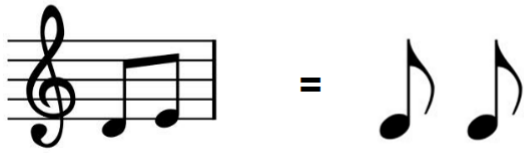

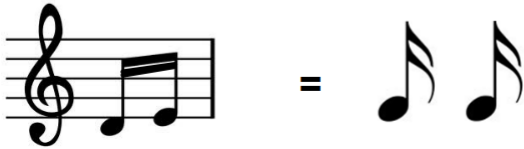

(d) $\frac{5}{6} + \frac{1}{12}$

a) $5/4$ or $1\frac{1}{4}$ b) $7/12 + 3/12 = 10/12$ or $5/6$ c) $10/15 + 12/15 = 22/15$ or $1\frac{7}{15}$ d) $10/12 + 1/12 = 11/12$

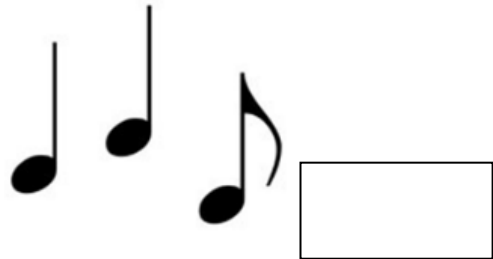

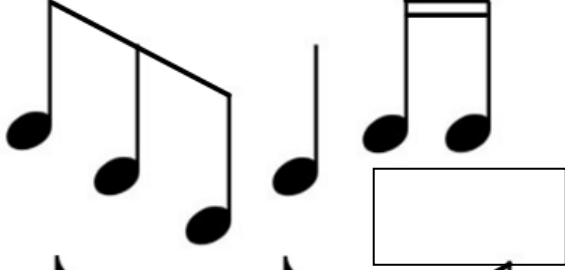

Interval	Number of Notes (length)	Change	Number of Notes after change	Fraction	Ratio Change:interval
Third	3 notes	Two thirds of length	2 notes	$2/3$	2:3
Octave	8 notes	One quarter of length	2 notes	$2/8$ or $1/4$	1:4
Fifth	5 notes	Four fifths of length	4 notes	$4/5$	4:5
Fourth	4 notes	Three quarters of length	3 notes	$3/4$	3:4

		
1	$\frac{1}{2}$	$\frac{1}{4}$

What count is represented by:

(a)  (c) 

(b)  (d) 

a) $2\frac{1}{2}$ b) $\frac{1}{4} + \frac{1}{4} + 1 + \frac{1}{2} = 2$ c) $\frac{1}{2} + \frac{1}{2} + \frac{1}{2} + 1 + \frac{1}{4} + \frac{1}{4} = 3$ d) $\frac{1}{4} + \frac{1}{2} + \frac{1}{4} + \frac{1}{4} + \frac{1}{4} = 1\frac{1}{2}$

What count is shown in each of these three bars?

Bar 1: $\frac{1}{2} + 1 + \frac{1}{2} + \frac{1}{2} = 2\frac{1}{2}$

Bar 3: $1 + 1 + \frac{1}{2} + \frac{1}{2} + \frac{1}{2} + \frac{1}{2} = 4$

Bar 2: $\frac{1}{2} + \frac{1}{2} + 1 + 1 + \frac{1}{2} + \frac{1}{2} + \frac{1}{2} = 4\frac{1}{2}$

Write some notes to represent a count of this many beats in a bar:

- (a) 1.25
- (b) 4
- (c) 3.5

a) Notes must add up to $1\frac{1}{4}$
b) Notes must add up to 4

c) Notes must add up to $3\frac{1}{2}$

Using geometric shapes, design a stringed instrument using the different string lengths from the lesson to select the notes.
