

Keeping Safe Outside School

A set of activities to explore. Make sure you discuss your answers with an adult at home.

Are these a safe place to play?

List the dangers of each.

What would you do if you found these things when you were playing?

Imagine these scenarios...

Your friends are deciding where to play on Saturday. You want to go to the park but they want to play near the railway line. What would you do?

One of your friends starts hanging out with some older children who you know smoke and drink alcohol. You haven't seen your friend try these things yet. What should you do?
