

Investigating Materials - Absorbency

Enquiry question: **How much water is absorbed by each material?**

Variables:

Independent variable: _____

Dependent variable: _____

Controlled variables: _____

Prediction:

The material that I think will be the most/least absorbent: _____

Results:

Material	Amount of water absorbed in cm + mm
Kitchen Roll	
Tin foil	
J-Cloth	
Wrapping paper	
Card	

Conclusion: Don't forget to refer back to the enquiry question.

The material that was the most/least absorbent: _____
